

CSR Activity Report: Support for Specially Challenged Children – Vegesna Foundation

Introduction

At Kshema, we remain committed to supporting inclusive development and improving the quality of life for children with intellectual disabilities and autism. Continuing our association with **Vegesna Foundation**, we focused this year's CSR efforts on strengthening essential infrastructure at their Intellectually Disabled & Autism School. The improvements undertaken have further enhanced the learning, therapy, and support environment for the students.

Objectives

Our aim for the financial year 2025–26 was to contribute to a safer, more hygienic, and supportive environment for children with special needs. Key objectives included:

- Upgrading essential facilities to improve daily hygiene and accessibility
- Strengthening infrastructure used for therapy, counselling, and administrative activities
- Enhancing the overall environment to support education, well-being, and rehabilitation

Implementation

Based on the requirements shared by Vegesna Foundation and following site assessments, we extended support for essential building repairs at the **Punarvas Building**, which houses administrative units, physiotherapy rooms, and parent counselling spaces.

The key work completed included the complete renovation of multiple washrooms in the building. This involved structural refurbishment, improved sanitary fixtures, and enhancements designed to provide cleaner, safer, and more accessible facilities for the children and staff. The upgrades were essential to maintain hygiene standards and ensure a supportive environment for students requiring continuous care and therapy.

Impact

The infrastructural improvements have resulted in:

- Cleaner and safer facilities for children with special needs
- A more accessible and comfortable environment for therapy sessions
- Enhanced support for staff, caregivers, and parents who rely on these spaces
- Improved daily experiences for students, contributing positively to their routine, confidence, and overall development

These repairs have strengthened the foundation's ability to deliver holistic care and maintain a nurturing learning ecosystem.

Conclusion

Kshema's continued support to Vegesna Foundation reflects our ongoing commitment to inclusive growth and community well-being. The infrastructural upgrades completed in FY 2025–26 have made a meaningful difference in the lives of children with intellectual disabilities and autism. We remain proud to partner with Vegesna Foundation and look forward to supporting more initiatives that uplift and empower the communities we serve.
